## Emergency Actions *for* COVID-19 *Survival:*

-  **Free healthcare for all:**  
Free testing, treatment, and medical care for everyone.
-  **No work:**  
Support all strikes and work stoppages. Guarantee access to food and resources to everyone.
-  **No payments, rent, or debt:**  
Stop all rent, mortgage, utilities, and loan payments. Block all foreclosures and evictions.
-  **Free all prisoners:**  
Get everyone out of jail, block all ICE operations, stop sweeps of homeless camps.
-  **Homes for all:**  
Open up unoccupied homes to all who need them.

These measures are essential to our collective survival. Until everyone can receive testing and treatment regardless of means—until workers are not forced to work to pay the rent even if they feel ill—until the resources of our society are redirected from police and prisons to health care and housing—we are all in danger.

We can't wait on the authorities to take care of us. We have to start enacting these measures ourselves now. Five actions, nothing less.
